

## Administering the MarkLogic Server

This course will provide the MarkLogic Server administrator with the necessary hands-on experience and tools to install, deploy, monitor and maintain the MarkLogic Server.

### Course Objectives

- Install and Configure the MarkLogic Server
- Perform the necessary tasks to deploy the MarkLogic Server, including loading and managing content, configuring security and setting up indexing
- Monitor the MarkLogic Server by utilizing the operating system logs and MarkLogic Server logs
- Perform routine maintenance tasks, including backup and restore and upgrading the server

### Class Details

**Length:** 3 days

**Refundable Booking Fee:** \$300 (USD)

**Availability:** Classroom, Live Online

### Terms and Conditions

Participants are entitled to a full booking fee refund or to request a substitution candidate if MarkLogic is notified in writing at least one working day prior to the start of the course. Recipients who cancel less than the 1- business day period and recipients who register and fail to fully attend a Public Course are not eligible for a refund of any kind. MarkLogic Corp. reserves the right to cancel courses up to 10 working days prior to the published start date. Please consider this when making your travel plans as MarkLogic's liability is limited to a full refund of the booking fee only. **Dates are subject to change.**
